

## Corrigendum to CPD Snapshot (February 2011)

### Approved standards cited in the Official Journal (not mentioned in the Snapshot)

1) The following standards are not included in the February version of the Snapshot as a consolidated amended version or a revision of the standard has been published since the last publication of the list of harmonised standards under the CPD in the Official Journal. For this reason, a discrepancy exists between the last version of the list in the OJEU and the monthly Snapshot.

The standards still cited in the Official Journal that will be replaced by the revised or the consolidated amended versions in the next publication are:

- **EN 13341:2005** (to be superseded by *EN 13341:2005+A1:2011* (published on 2011-01-12) in the next publication of the list of harmonised standards in the OJEU)
- **EN 14081-1:2005** (to be superseded by *EN 14081-1:2005+A1:2011* (published on 2010-09-15) in the next publication of the list of harmonised standards in the OJEU)
